## **KableX — Covid-19 Statement**

Dear Customers,

As the current environment regarding Coronavirus (Covid-19) continues to evolve each day with impacts being felt all over the world, KableX is making the health and safety of employees and customers the highest priority. KableX has been training and informing all staff on the health and safety measures to be undertaken that still allow employees to work safely within the workshops to continue to supply cable and repairs to all customers.

Some safety precautions KableX is undertaking include:

- Internal policies regarding Covid-19;
- Washing hands and cleaning work stations frequently;
- Staggering lunch breaks;
- Where possible, staff members working from a home environment.

KableX is still taking orders and all staff members are available to assist with any concerns and problems you may have. Please see the contact details below. In an effort to reduce face-to-face encounters, KableX staff members are available for phone calls, emails or video calls if required. All other staff are still contactable via reception by phoning 1800 522 539.

As KableX looks to navigate the situation for now, all KableX sites will be open as usual with current standard hours, though responses from staff may be delayed in this time. However, please be advised KableX is working to fulfil all customer requests and orders in a timely matter.
